

HOW CAN "BRANŻA
DZIECIEŃCA" **SUPPORT
YOUR MARKETING?**

DEAR READER

Toys and products for children form a very broad topic. What and where you talk about your product decides whether it is a success or a flop. Next to an advertising offer, this brochure will tell you **what should be important while designing e.g. a press advertisement**, so that shop owners feel encouraged to place an order.

You are free to contact me not only about advertising, but also about each and every topic that might serve as the canvas for an article at “Branża Dziecięca”: m.jankowski@branzadziecieca.pl ■

HOW TO DESIGN A GOOD AD?

Good advertising means effective advertising. If you want to be effective, presenting your product with a slogan and a large logo is not enough ;) You need to know what troubles its audience and what problems the product might help to solve. Here, we suggest what you should emphasize.

As an industry magazine, we contact suppliers offering toys, prams, safety seats, and other products for children every day, we also talk to owners and to persons responsible for purchases. This is how we came up with a list of suggestions of what you should mention in your advertising as a manufacturer, so that it resonates better with your target group.

SAY THAT YOU'RE KEEPING YOUR EAR TO THE GROUND

You must've heard about the "online auction problem". The same products are available at lower prices than the price that the standard shops pay the supplier for it. This is their problem. Are you able to offer a price that allows them to be profitable? Mention it in the form of **a guarantee of a profitable transaction.**

ANTICIPATE THEIR FEARS

Why are shops unwilling to order new, unknown brands? They're afraid that they will quickly become non-sellers, if the products are not advertised and parents don't know about it. **Emphasize that you're investing in advertising** – even if it's not on TV, it's in magazines for pregnant women, on parenting websites and blogs, at birthing schools, and at maternity wards. **Add an emblem to your design** that says "a product advertised in...".

STRENGTHEN YOUR OFFER

Show them that you're a partner and you want the product to rotate. Add **marketing support** to your product. Posters and other PoS as well as bonuses for customers and training courses are the most popular. You might want to think outside the box and emphasize in your ads that you organise competitions (for customers of a given shop), you provide free products for the display or you help to decorate the display.

SHOW APPRECIATION

If a store invests in training courses for employees, shows initiative in the sales process, it acts to your benefit. Appreciate it, **promote such stores** – by offering them higher discounts or other privileges connected to supply or handling any complaints – and don't forget to mention it in advertising. A bonus programme for the best sellers might be your asset.

EMPHASIZE AVAILABILITY

We mean her something more than just the availability of the products, because keeping sufficient stock inventory to handle orders quickly is a must. Availability of your suppliers is just as important, assuring that they are always in touch. The problem often lies in not responding to calls or e-mails. **Quote numbers:** we ship our orders within 24 hours, we respond to e-mails within 5 minutes – and keep your promises.

MAKE YOUR PARTNER LOOK GOOD

It is very important in critical situations, if a customer is not satisfied with the product (complaints). If you pay attention to keeping a good image of your client amongst their customers, your chances of another order grow. Provide help – ensure fast and easy procedure, offering additional services, e.g. **replacement products for the duration of the repairs.**

THE EFFICIENCY OF ADVERTISING DEPENDS BOTH ON WHAT YOU SAY AND WHERE YOU PUT IT

If you want people responsible for purchases for their shops to become interested in your offer, advertising in an industry magazine will be a good place to start – over 90% of readers of “Branża Dziecięca” are owners of stores and warehouses.

HOW TO SPEND LESS AND GET MORE?

When you order a single 1/1 advertisement in “Branża Dziecięca”, the entire page is at your disposal and you are printed once in the entire magazine. But you can buy the same surface cheaper, and ensure regular presence and more forms of displaying of your product, if you decide to buy a package deal.

EUR 4,250
YOUR NET SAVINGS

We asked advertisers what influences their decisions to purchase a package deal under a 12-month contract. They spoke in one voice that **low cost of regular display** and access to various forms of presence in the magazine are of key significance. Their advertising is visible to shop owners – potential clients – in **each issue** of “Branża Dziecięca” for a year, in product presentations (both in printed edition, on the website, and in mailing messages), market reviews, RM catalogue, and press releases. They notice the product, they become interested, at some point, decide to contact the advertiser.

WHAT'S THE DEAL WITH THE PACKAGE DEAL? THE VALUE OF THE “L” OFFER DIVIDED INTO INDIVIDUAL ADS IS EUR 11,460 NET.

You can save EUR 4,250 net and spend it on additional advertising dedicated to parents, instead. Why do we propose this? It's a win-win for both parties – we gain a loyal client, and your product is visible in more than one place.
